

Accelerating Breakthroughs Through International Collaboration

Empowering Biomedical Leaders

WHO WE ARE

The International Biomedical Research Alliance (IBRA) is a private sector 501(c)(3) non-profit organization that partners with leading academic, industry, and public institutions to drive groundbreaking collaborative international biomedical research and exceptional training.

WHAT WE DO

Provide Scholarships & Grants

- Research-related Travel
- Innovation Awards
- Housing Support
- Medical School Tuition

Launch & Advance Careers

- Talent Matching
- Conferences & Seminars
- Career Development Experiences

Foster International Collaborations

- Facilitate Networking Opportunities
- Coordinate Novel Partnerships
- Support Operational Training Expenses

OUR PARTNERS

LASKER
FOUNDATION

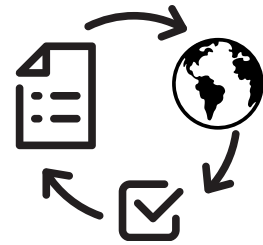

UNIVERSITY OF
CAMBRIDGE

NIH Oxford-Cambridge Scholars Program

To achieve our mission, we partner with innovative global doctoral training programs and globally-recognized centers of excellence and biomedical training and research advocates to enable groundbreaking work.

OUR IMPACT

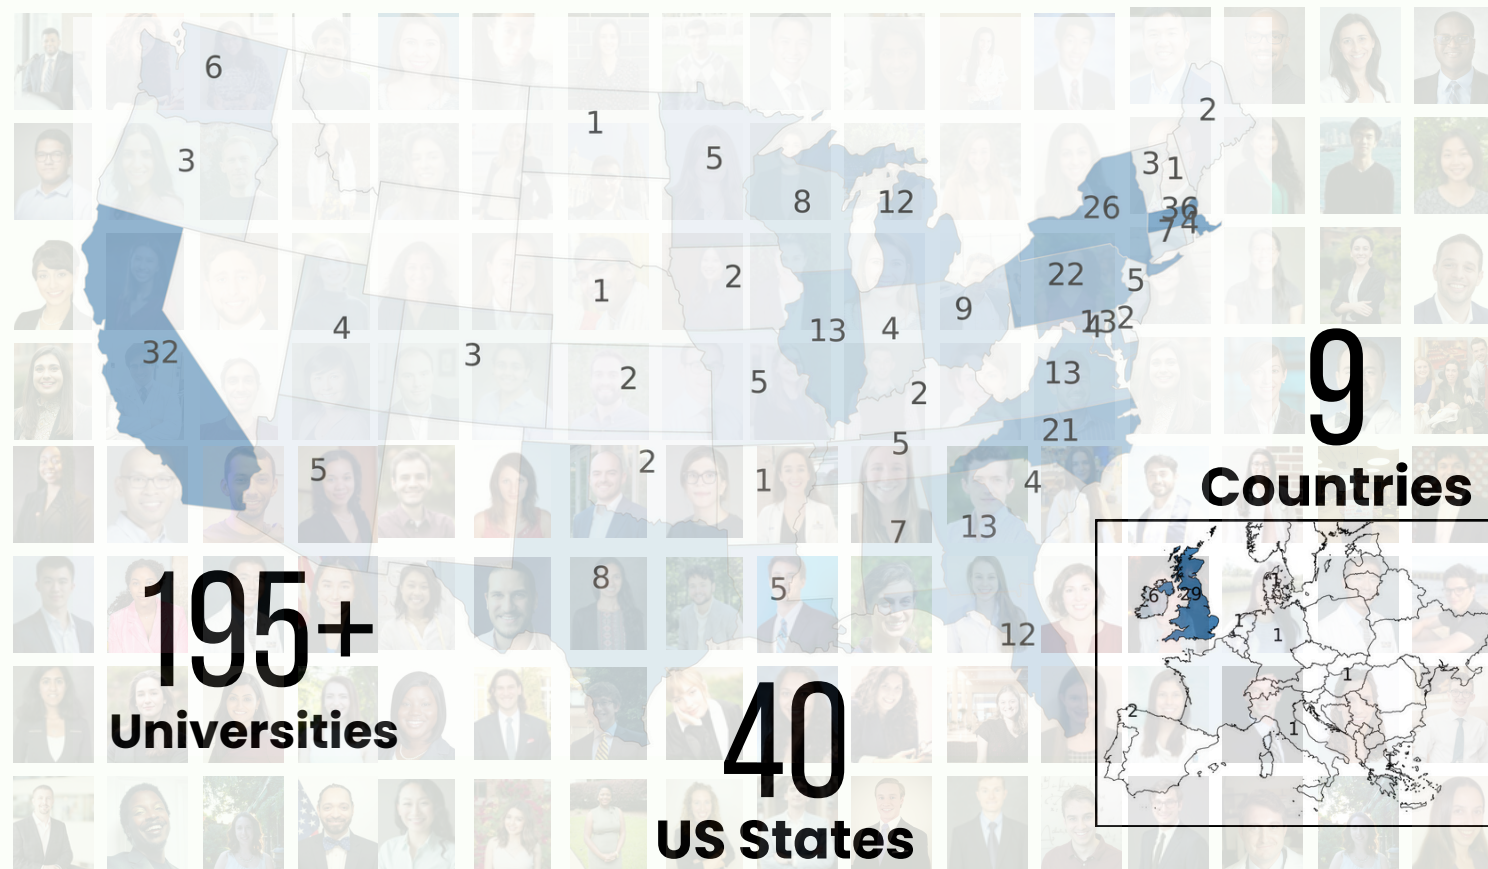

Since 2005, we have helped support the training, education, and career development of nearly 400 emerging leaders in biomedical research.

IBRA-supported Trainees: By-the-numbers

*National Center for Science and Engineering Statistics, Survey of Earned Doctorates, 2022
**National Institutes of Health Office of Extramural Research, Survey 2023

OUR REACH

The IBRA Network is a novel professional society and online community that connects emerging and established international biomedical leaders and organizations to foster collaboration, identify talent and funding, and to promote success.

- Connect emerging and established biomedical research leaders globally
- Partner with organizations to advance international research and innovation
- Facilitate career development, talent acquisition, mentorship, and resource sharing
- Optimize skills and resources across sectors

Catalyze the collaborations that will lead to breakthroughs
